Subject: Summary of meetings we have had on ESA spatial analyses

Hi guys –

Prior to the meeting on Tuesday, I thought it would be helpful to just summarize for folks the things we have been talking about in the meetings we had the last few weeks. If you guys can take a look and add or revise anything. I was trying to keep it as succinct as possible in a bulleted list, but I don't know if I achieved that since there are still a lot of words! Please add or edit stuff and we can circulate after that.

Thanks!

Colleen
